Re: Colorado Open Records Act Request (CORA)

Dear Chief Pazen:

On March 10, 2021, I wrote to you at the suggestion of Chief Deputy Prosecutor Maggie Conboy of the Denver District Attorney's Office.

I asked you to please provide any and all records regarding the results of accusations by any citizens against certain officers and officials, including abusive and/or illegal tactics used by such officers; and breaches of rules, regulations and policies of your Department.

I listed the following Police Officers who tampered with witnesses, and falsified evidence, and perjured during the investigation of my case. And who perjured and/or purposely misrepresented evidence, and/or suborned witness perjury and/or allowed evidence they knew to be false to be presented unchallenged to the jury:

Sergeants Michael Fetrow, David Archuleta, Eric Knutson; Detectives Jerry Baruch, Edward Frushour, Robert Edward Burroughs, and Dale Wallis. And particularly Lieutenant Jonathyn Priest and Detective Martin E. Vigil. I also asked for information your department may have against Chief Deputy Prosecutor Stephanie Villafuerte. I am of course aware that Ms. Villafuerte was not a member of the Police Department. But later investigations of her possible felonious conduct in election campaign activities may have caused information on her activities to be entered into police records.

As support for the March 10, 2021 request. I cited C.R.S. 24-72-303 which allows citizens the right to discover records of accusations into police and official misconduct including internal affairs records. I have not yet received a response to the above request.

Please allow this letter to serve as a CORA request which will replace the request of March 10, but will still incorporate the mandate of C.R.S. 24-72-303 as well as the directives of the Colorado Open Records Act.

I hope you will send this information as promptly as possible, or provide further guidance as to how this request may be fulfilled. Please confirm receipt of this request.

Sincerely,

H. L. Hebert. 118222
